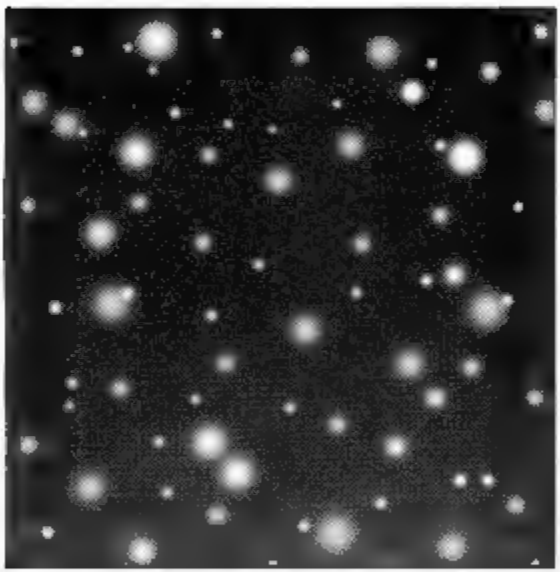
CELESTIAL BLOOD

CELESTIAL GLOBE

天体球儀



What did you wish for as a present?
Papa won't tell me what it is.
Ah ha ha
Being surprised is why it's fun. My family will go to Norway.

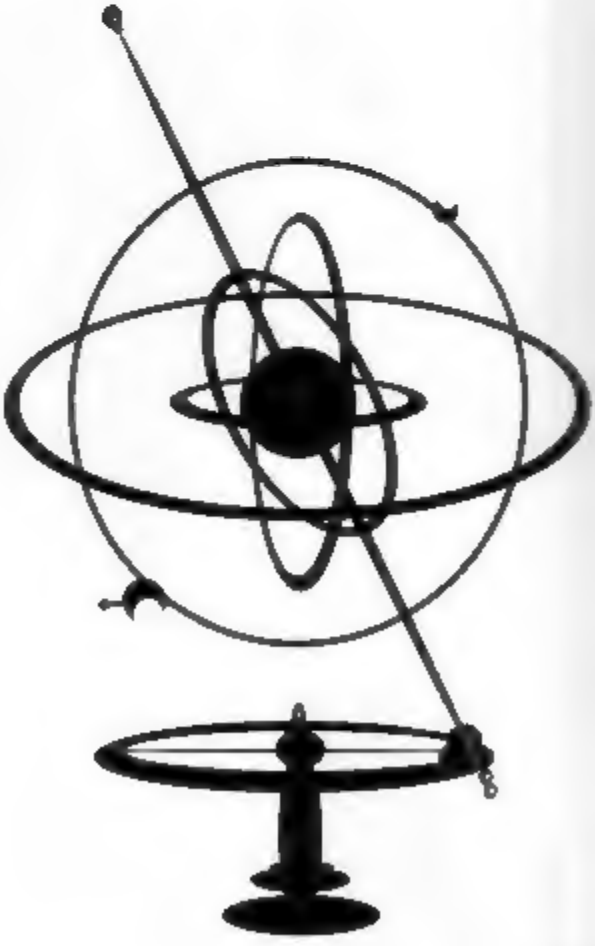
And there's one more thing...
Ron said that he's going on a journey with his family too this year
What's different from usual is that...

Ah!
There's someone...

...whom I want to give a present...

天体球儀

CELESTIAL GLOBE



Are you for real ...?
Ron!
...
It would be alright with my family. Mom and dad really like you.
Going that far for that guy and to even stay here is just...
Thanks, Ron, but no.
It's your long-awaited family trip so don't worry about me and enjoy it.
In exchange I want to hear all about it later.

Weasley, Granger.
Hagrid is looking for you.
For an outsider it looks like this.
Anyway, be sure to eat properly.
I'll send you sweets!
Wah
Yeah, thanks ...
You're a good guy
Where's Potter?
Don't complain. If you go missing suddenly my free time will get spoilt.
Hm ?
He? He's he...
Harry has a fever and has to stay in bed.
He probably won't be able to get up during the whole break.
Ah, poor Harry!
Yes!
Yes, yes, he was in so much pain!

I didn't want to meet him so I hid like this

but just that he noticed that I'm not here

Why am I so happy ...?

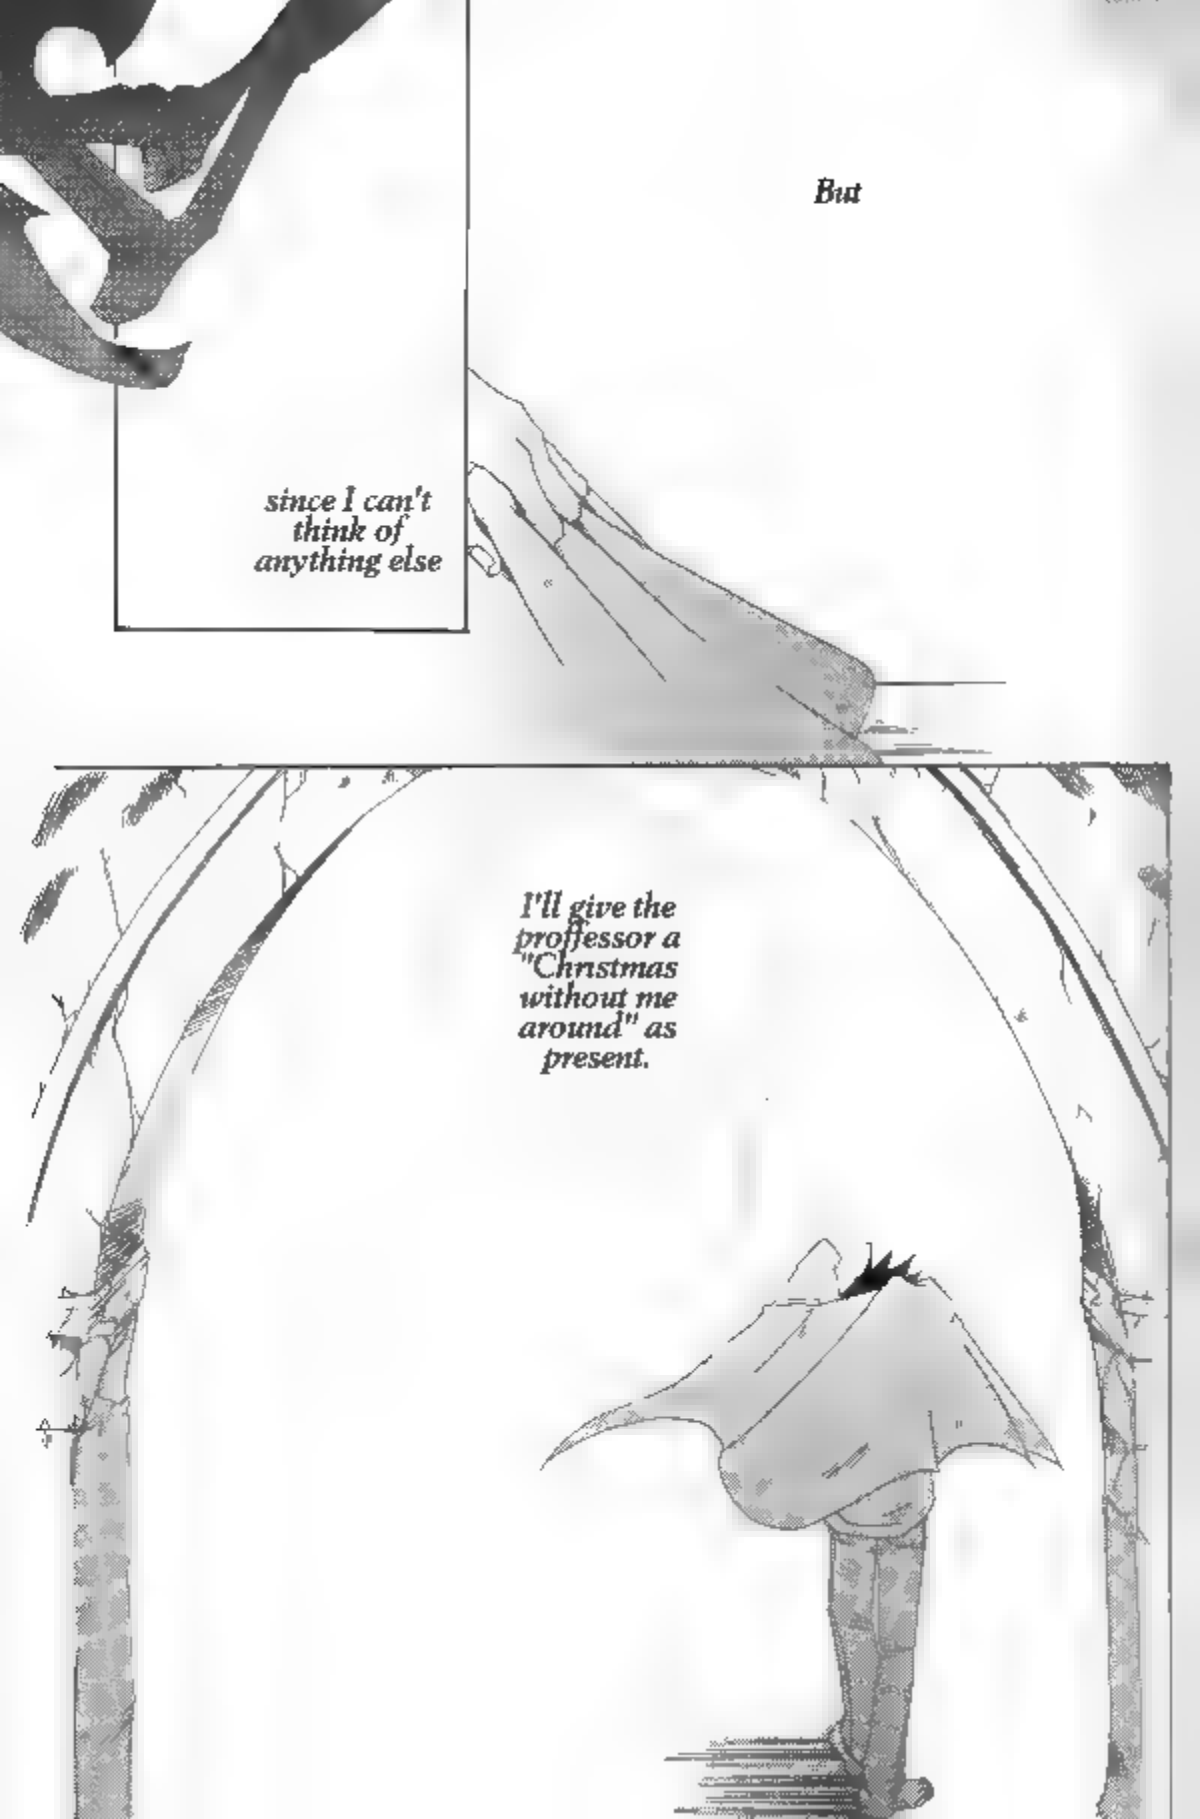
Happy?

Christmas present list

Wait.

If he's happy when I'm not around then...

How about a Christmas "without me around"?



But
since I can't think of anything else
I'll give the professor a "Christmas without me around" as present.

Saying that, there's really nothing to do...
I'll stay here a bit longer and then I'll get something from the kitchen ...
I'll go now after all.
No one will see me if I use my coat.

* stomach growling

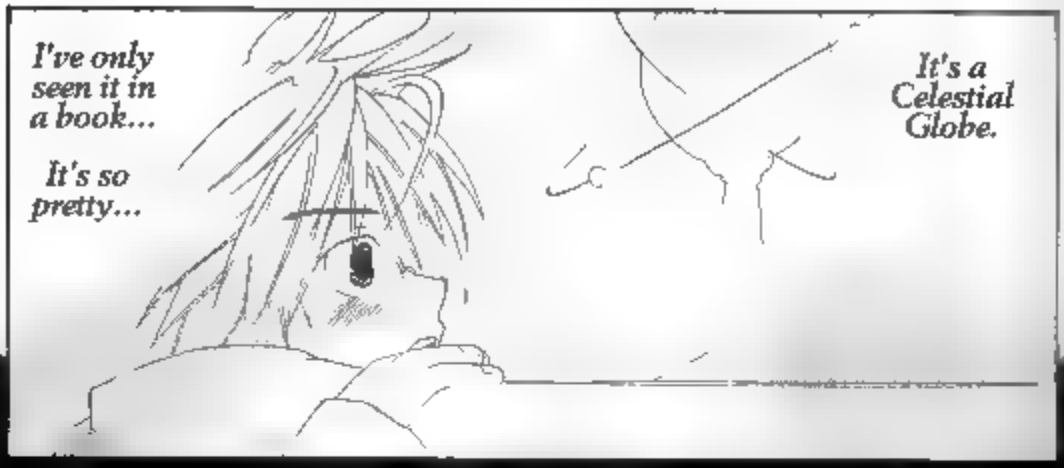
I didn't want to return to my room so I came to the inner garden, but...
I couldn't bear the empty great
No one's here either ...
I wonder what Ron and the others are doing right now

Two more days til Christmas ...
Seeing all those stars
reminds me how lonely I am
unnecessarily

Professor...!
Sn...
SNAPE!
Why is he here?
But somehow ...

Ssssssome-how...
HE'S COMING THIS WAAAAY!!
There's no meaning in ditching dinner if he sees me now.

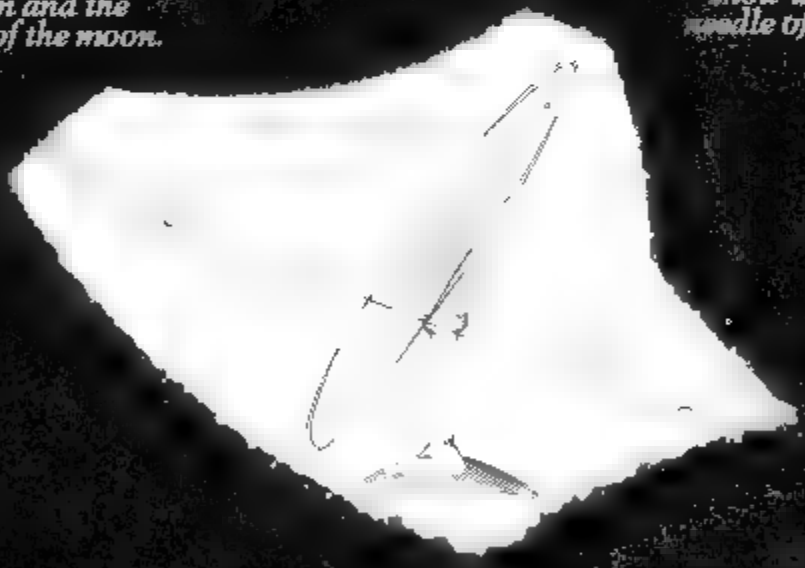
Glitter
Ah
No! I shouldn't!!!
I... I really wanna know... but I should stay here ...
What, What is that?
Seems really interesting!
doki doki
Only a little bit...!
If I don't get caught it will be alright.



It can show the birth and the death of stars but that's not all... It can show when special plants bloom and the phases of the moon.

...ows the movements of the stars.

You can find out the time in space which you can't show with the needle of a clock.



It's like having the universe in the palm of your hand.

in the middle of such a cold day, comparing the sky and the Celestial Globe...
Using such a thing
What is he up to?
Oh, he's done already. Sigh...
Snow...

Snowberry
...?

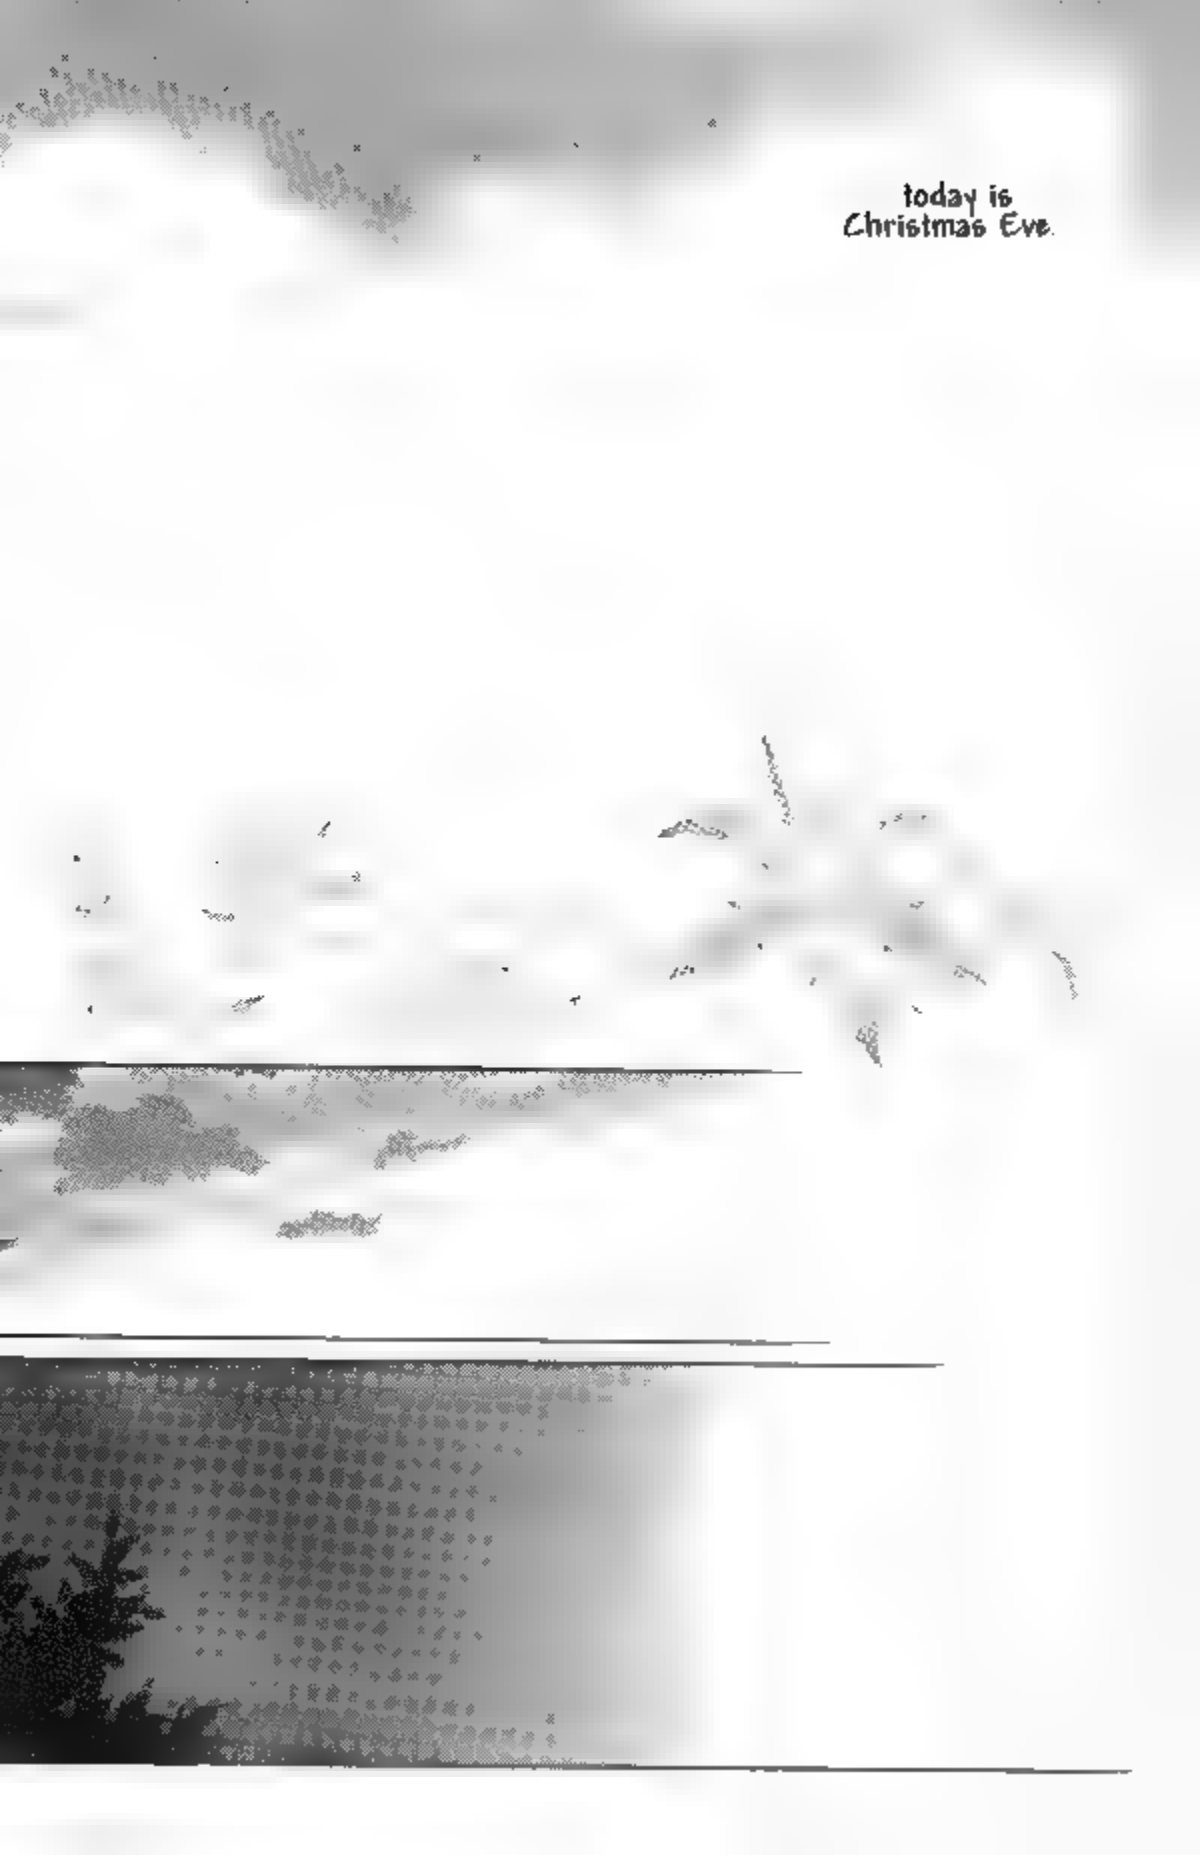
To really get sick... I'm an idiot...
Even though



today is
Christmas Eve.

Cloooooose!!

30 more minutes till Christmas!
It's finally here..
The professor
But after all...
I think that's really the best present that I could give.
is enjoying his Chrismas with reseach, without having to get angry, because I'm not here.
a present that no one can see is kind of lonely.
What it this sticky green fluid is he adding, honey
What is he making anyway
Hah, you're already too old for that, geezer
Pu
Pu
Pu
And look who's working alone till Christmas Eve...

Melting with love for that "geezer".

It seems that that the big and tiny star are existing in the same orbit
Oh, the position of the stars has changed a little since yesterday.
Preserving the constant distance and going round and round
Those two stars will never be side by side or next to each-other or catch up
Or over-take each-other
They're always divided by that distance how lonely...

Ah
Ah
Wah
Wah
Wah

Who is there !?

If this isn't...

Only a little bit more
Coming all the way to the dungeon on Christmas
and ruining my celestial globe...

Whatever you do it's quite something, Mr. Potter.
Tha... Thank you, that's ...

GET OUT!
Wa Wa Wa

That's all...
I only wanted to bring the stars a little bit closer

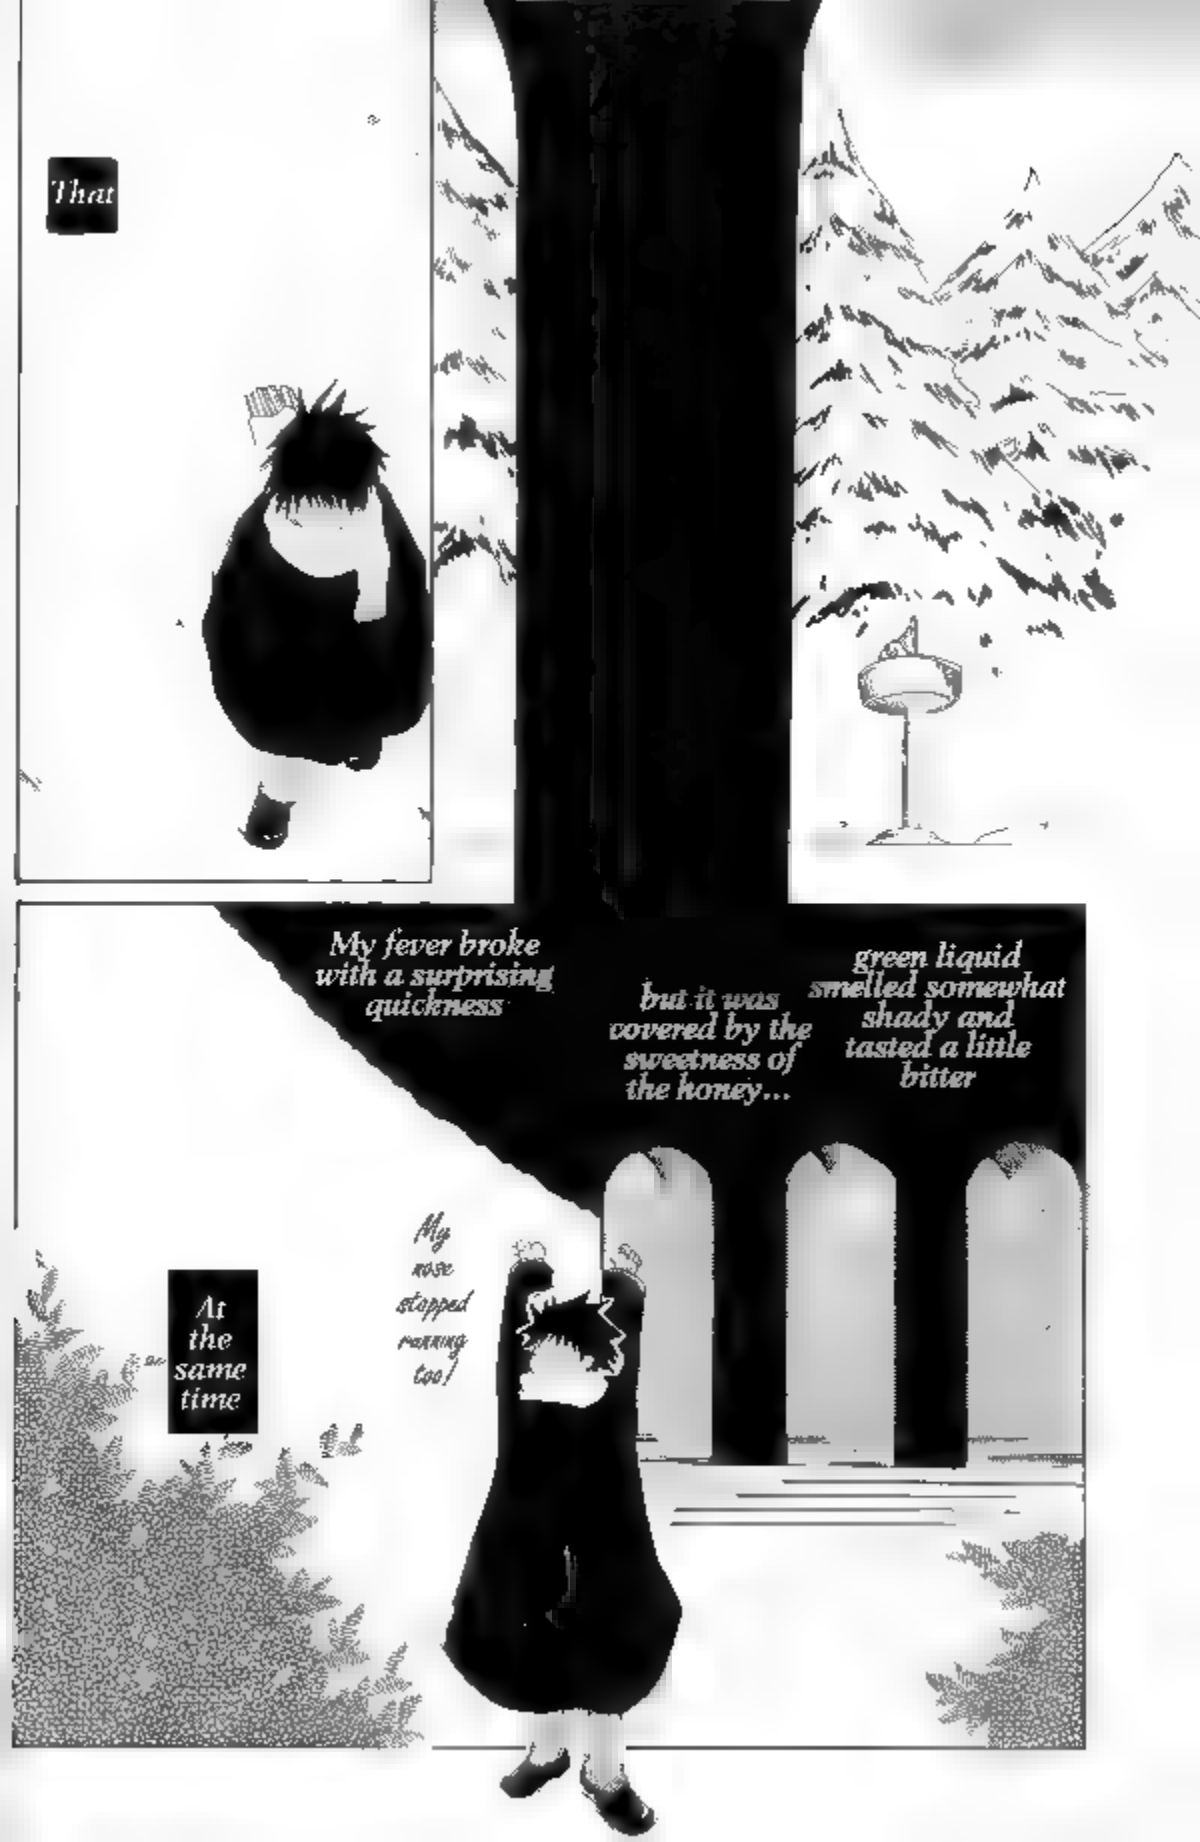
And this...
This is...
From Hagrid, Hermione, Aunt Molly...

snowberry
Effect: Antifebrile

Warning:

Due to the use of honey the effect might be weakened.



That
My fever broke with a surprising quickness
but it was covered by the sweetness of the honey...
green liquid smelled somewhat shady and tasted a little bitter
My nose stopped running too!
At the same time

who worried over a present, at least it seems that way...
I was relieved that I wasn't the only one
Merry Chri...!
Where is the star?! Where is it!?
I have no problems believing that you stole it!
Hey!
Me stealing I have no idea what you're talking about, Sir.
Let me go!
Don't play the innocent! Without the star I can't use the Celestial Globe! Return the small star!
I'm telling you! I have no idea what you're ta...

roll

See...
I really didn't steal any stars!
That's
That's only candy!

How cruel!
Only because you attempt such things
Sigh
it has to end like this.

Pootteer

When I saw the
professor holding
that small star so carefully
